Digital Analytics & Integrations Specialist | GA4, GTM, Shopify, BigQuery, Product Feeds

PROFESSIONAL SUMMARY

Client-facing digital analytics and MarTech specialist focused on making marketing, ecommerce, and revenue data trustworthy. Hands-on across GA4, Google Tag Manager, server-side tagging, data layer specs, conversion APIs, BigQuery/SQL, Looker Studio, product-feed operations, and CRM/ad-platform integrations. Comfortable owning messy analytics implementations end to end: auditing what is broken, writing practical remediation roadmaps, partnering with developers, validating before reporting, and explaining the business impact to non-technical stakeholders.

ROLE-ALIGNED STRENGTHS

- GA4 + GTM implementation:** GA4 properties, event taxonomies, key events, custom dimensions, data streams, web/server-side GTM containers, triggers, variables, consent mode, QA, and version discipline
- B2B ecommerce + Shopify:** Shopify/ecommerce measurement, product-detail and checkout events, quote/RFQ-style funnels, account registrations, lead forms, ecommerce attribution, and revenue-path reporting
- Product feeds + Merchant Center:** Google Merchant Center, Shopping/PMAX data needs, product-feed QA, structured data, catalog attributes, disapprovals, supplemental-feed logic, and feed-health reporting
- Pixels + Conversion APIs:** Google Ads, Meta, LinkedIn, Microsoft Ads/Bing, enhanced conversions, offline conversion flows, server-side tracking, Stape, consent-aware tagging, and signal-quality validation
- BigQuery / SQL / dashboards:** GA4 BigQuery exports, SQL transformation logic, Looker Studio, Power BI, QuickSight, Metabase, ERP/CRM/ecommerce reconciliation, KPI definitions, and executive dashboards
- Client consulting:** discovery, scoping, stakeholder calls, documentation, developer handoff, roadmap creation, prioritization, and plain-English explanations of technical tracking issues

PROFESSIONAL EXPERIENCE

FOCO — GTM Systems & MarTech Consultant

Self-employed / Contract Consultant | Orlando, FL / Remote | Jan 2025–Present

- Founded a GTM systems and MarTech consultancy delivering measurement infrastructure, consent architecture, CRM/workflow automation, and customer data activation for 20+ clients across ecommerce, B2B SaaS, healthcare, and agency environments.
- Build GA4/GTM tracking plans, conversion-event definitions, UTM standards, server-side tagging approaches, consent requirements, CRM handoffs, and dashboard requirements from discovery through implementation.
- Support ecommerce and Shopify-adjacent measurement needs including product-page behavior, cart/checkout events, lead and quote forms, catalog/feed data quality, Shopping campaign inputs, and cross-platform conversion validation.
- Audit broken analytics setups, identify duplicate/missing conversions, document data layer requirements, QA developer implementations, and translate remediation work into prioritized roadmaps for clients.

Freeman+Leonard — HubSpot & Marketing Operations Consultant

Contract Consultant | Remote | Feb 2026–Present

- Support HubSpot marketing operations across campaign execution, audience segmentation, forms, lists, CRM workflows, lifecycle automation, and performance reporting.
- QA form logic, personalization, workflow triggers, suppression rules, attribution fields, and reporting paths to improve lifecycle communication and sales/marketing handoffs.
- Partner with non-technical stakeholders to turn campaign, sales, and reporting needs into clean HubSpot configuration, measurable workflows, and repeatable operating processes.

Macabacus — MarTech & Marketing Analytics Consultant

Contract Consultant | Orlando, FL / Remote | Nov 2025–Aug 2026

- Owned MarTech and marketing analytics infrastructure across GA4, Google Tag Manager, cookie consent, attribution tracking, campaign event tracking, and A/B test measurement.
- Implemented server-side tracking via Stape with conversion API integrations for Meta, LinkedIn, and Microsoft Ads to improve signal quality and reduce browser-side tracking loss.
- Managed integrations between HubSpot, Salesforce, CRM, and data platforms, including API workflows, synchronization, governance, enrichment, and automation through Zapier and Make.
- Provided technical tracking guidance, platform training, and MarTech recommendations for marketing, sales, RevOps, product/engineering, and data teams.

Laughlin Constable — Google Analytics & Piwik PRO Consultant

Contract Consultant | Orlando, FL / Remote | Nov 2025–Feb 2026

- Advised healthcare and regulated clients on Google Analytics versus Piwik PRO strategy based on compliance, data ownership, reporting requirements, and long-term maintainability.
- Designed privacy-conscious event tracking and reporting structures while helping internal teams avoid protected health information capture.
- Presented analytics governance recommendations and platform tradeoffs to stakeholders evaluating compliant measurement options.

Logisolve — Matomo Implementation Consultant

Contract Consultant | Orlando, FL | Nov 2025–Jan 2026

- Led Matomo implementation discovery and authored a roadmap covering dashboard architecture, reporting framework, event taxonomy, Tag Manager setup, and Angular SPA tracking requirements.
- Researched SPA route-change tracking, tested event configurations, advised on HIPAA-conscious analytics practices, and completed implementation planning in under two months.

tmp — Google Analytics Consultant

Contract Consultant | Orlando, FL / Remote | Apr 2025–Dec 2025

- Managed GA/GTM tracking infrastructure across web analytics, paid media, and reporting platforms during an 8-month engagement.
- Implemented and maintained paid media tags, including The Trade Desk, inside Google Tag Manager; built QuickSight/Metabase dashboards and a Meiro-based Google Ads data pipeline.

Chamberlain Group — Senior Marketing Analytics Engineer

Oak Brook, IL / Remote | May 2024–Dec 2024

- Built BigQuery/SQL dashboards for support and myQ app KPIs, improving case-resolution efficiency by 15% through faster visibility into user behavior and operational performance.
- Managed national campaign analytics with GA4 and Kochava, tracking clicks, downloads, registrations, installs, and revenue-adjacent events to improve ad spend allocation and conversion analysis.
- Led Optimizely A/B tests for paid landing pages, driving a 25% lift in conversion rate and 15% bounce-rate reduction.

Chamberlain Group — Marketing Data Analyst

Oak Brook, IL / Remote | Jun 2022–May 2024

- Built Power BI dashboards integrating LinkedIn, SAP, Pardot, Salesforce, and Google Analytics data, improving lead attribution accuracy by 25%.
- Implemented Tealium and Google Tag Manager tracking solutions to improve campaign analytics precision, audience segmentation, and measurement consistency.
- Engineered a Databricks/SQL attribution pipeline from Kochava into BigQuery, reducing manual data processing time by 40%.

Trustmark — Google Analytics Consultant

Contract Consultant | Remote

- Supported a multi-domain GA4 migration by rebuilding event taxonomies and measurement structures to preserve enterprise reporting accuracy.
- Built Looker Studio dashboards combining GA4 and tag-level data for visibility into traffic, engagement, funnel performance, and conversions.
- Developed custom JavaScript tags in Google Tag Manager to track form abandonment, lead-generation drop-off points, and other funnel behaviors.

Trellist Marketing and Technology — Digital Analytics Consultant

Wilmington, DE / Remote | Jul 2021–May 2022

- Developed GA4/GTM-style tracking, SQL ETL scripts, Python reporting automation, and Google Data Studio dashboards for multi-product analytics.
- Led software and marketing operations projects across QA, technical SEO, analytics dashboards, email marketing, product launch work, HubSpot dashboards, and client reporting.

Earlier Digital Marketing & Analytics Roles

Marriott Vacations Worldwide, Darden, Virtual Stacks, TechnodealsUSA | 2017–2021

- Supported digital campaign operations, ecommerce initiatives, QA/UAT, conversion tracking, SEO/PPC analytics, landing-page testing, and email/marketing automation.
